## Collapsible Possum/Cat Trap (CPT/CCT) Instructions

### Trap construction

1. Unhook locking clips

2. Flip up the side of the trap that was pinned down from the locking clips

3. pull the other bottom side furthest away from you up & out towards yourself, the door will snap up into place once pulled up. (trigger bar may get in the way.)

4. there will be a piece of metal inside the trap, it is the locking bar. Slide the rear door hatch down into place and put the metal rod through the loops on the inside of the door.

5. Flip over the square outside brace for extra structural support.

6. Connect the trigger bar to the trigger coil, on the left side of the front door frame it does not hinder the door from closing. (The trigger bar is attached to the left side of the foot pedal and extends to the

front of the trap.)

7. On the left side of the right side of the trigger coil there is an 'L' shaped piece of metal the door sits on to set the trap.

8. Trap is good to go, Goodluck!
